

New office expansion enables West Coast Quartz to accelerate growth in account management, engineering services and customer support.

Fremont, CA – March 17, 2023 – West Coast Quartz and its parent company Worldex Industry & Trading Company Ltd, the leading providers of high-performance process chamber part solutions for the Semiconductor Manufacturing Industry, recently opened a new office in the Phoenix metro city of Gilbert, Arizona, to accommodate rapid growth and leverage the area’s evolving high-technology customer investments.

In addition to the corporate headquarters in Fremont, California, the new office space provides the capabilities to support the company’s growth with all major customers in the region. West Coast Quartz continues to develop materials solutions since its beginning in the early 1980’s in the areas of quartz, silicon, ceramic, silicon-carbide and sapphire.

“The decision to expand our presence into Gilbert Arizona was a logical step in our business strategy to be closer to our customers,” said Jun Hyung Kim, Chief Operating Officer. “The area is growing rapidly, as many semiconductor manufacturing high-tech Fortune 500 companies move into or expand in the area. We are seizing on the opportunity to further develop staffing and capabilities in our technical engineering, professional services, and business support departments, as well as increase our ability to provide real-time sales engagement to our current and future customers and partners.”

**West Coast Quartz & Worldex Industry & Trading Company Ltd.**

Creates exceptional process chamber components and services, empowering semiconductor manufacturers to deliver world-class technology chips to their global clients. The company also operates regional offices in China, Japan, Korea, Singapore, and Taiwan. For more information, visit [wcq.com](http://wcq.com) or [worldexint.com](http://worldexint.com)
